

HEAD CHEF

Hej!

We are a Swedish company based in Östersund, Jämtland aiming at changing the world through food. We work with local communities to organise food walks promoting artisanal sustainable food. To support innovative food brands we help them develop their PR and communication. As food consultants and inspirational hosts and speakers we advise companies and convey the message that to last food companies have to be responsible and sustainable.

Our mission is to make the world happier, tastier, more creative and sustainable – while changing the food systems.

Our new home, H E I M Food Studio, is hiring a chef. We are looking for a professional cook committed to use his or her creativity to promote tasty, sustainable, local food.

H E I M Food Studio is a makerspace. Devoted to promote our gastronomic region, our H E I M sessions are an ode to our region's craftsmen and produces (game, cheeses, berries, mushrooms, root vegetables, etc.). We take every opportunity to make a change in the food business and we need the help of a conscientious chef to help us with that.

We would love to broaden our food horizons by welcoming a hungry game changer from abroad. Come join the H E I M Folket and seize this opportunity to discover one of the UNESCO's Creative Cities of Gastronomy in the center of Jämtland-Härjedalen, our artisanal food region.

You think you are the perfect fit? We would love to meet you! Wait no more and contact us at info@heim.se
